FIELD LEVEL NOTES

Section Number: Main

Field Name: ProgramIncomeExpended
Row Name: Program Income

Column Name: Expended

Year: 2003 Field Note:

Historically, outside agencies reimbursed the Department of Health (DOH) for their costs associated with the Healthy Baby/Healthy Kids and Special Kids Network Helplines. The funds received were considered "Program Income". As of July 1, 2004, these outside agencies will be paying their telephone bills directly to the telephone company, and no monies will be received by DOH.

Screening Progra	ams for Older Ch	ildren & Wome	n (Specify Tests	by name)							
(1) Use occurrent I (2) Report only tho (3) Use number of	se from resident	births.									

Total births by occurrence for 2004 is a preliminary figure from the PA Department of Health, Bureau of Health Statistics and Research.

The contract laboratories cannot provide unduplicated filter papers, therefore the number in column A exceeds total births by occurrence.

During Fiscal Year 2004, The Pennsylvania Newborn Screening Program (PNSP) continued to screen all newborns born in Pennsylvania, except those opting out for religious reasons, for six inborn errors of chemistry as listed on Form 6.

Currently 99.3 percent of Pennsylvania newborns receive screening for over thirty additional conditions through the supplemental screening program, offered to parents by birthing facilities. Act 47 of 2004 passed in December and amends the Newborn Child Testing Act, Act 86 of

1992, allowing health care facilities to chose alternative certified laboratories to perform the newborn screening tests. Pennsylvania health care submitters are sending the newborn screening specimens to two laboratories. The PNSP provided screening on 143,414 filter

papers. During 2004, 226 newborns were diagnosed with one of the six state-mandated conditions. The following conditions were diagnosed: 66 congenital hypothyroidism, 11congenital adrenal hyperplasia, 83 hemoglobinopathies, 26 phenylketonuria, 2 maple syrup urine disease, and 38 galactosemia.

Numbers reported on this form are estimates. Our "total served" figure is not unduplicated because we do not or cannot require identifying information to be presented prior to the provision of a large number of the services upon which we report.

Figures for 2003 were over reported. The correct total that should have been reported is 474,738.

The estimates of insurance coverage are extrapolated from information available regarding the limited number of clients to whom we or our contractors provide direct healthcare services and from whom we require or request such information to be collected. Insurance figures were available only from the following programs:

Healthy Babies/Healthy Kids Helplines: Numbers were based on caller characteristics. The call volume for 2004 shows a marked drop of individuals served from the previous year. This is a result of no television advertising for the year 2004, versus two flights during 2003. During the current year there are two flights of advertising scheduled that should prompt an increase in call volume.

County-Municipal Health Departments: Numbers are reported directly from the Departments to the Title V program regarding services provided with Title V monies.

Community Health District Offices: Numbers are reported by DOH Community Health Nurse Consultants directly to the Title V program.

Categorical Direct Services Programs: The data was drawn from our CORE database, which serves as an invoicing system for each program providing direct services to

Eligible for Title XIX	12,795	2,306	0	0	0	0	0	2,306

Form 8 requires both information from the PA Department of Health, Bureau of Health Statistics and Research, which is generally only available after a one-year delay, and other program information, which is generally available fairly close to the end of the year in question. In an effort to make our reporting as current as possible, and for the convenience of the disparate program personnel who supply us with data, this year Form 8 reflects data from programs for the 2003 reporting period, and final birth data for 2003 from the Department of Health, Bureau of Health Statistics and Research.

'Total Deliveries in State' include live births and reported fetal deaths.

Title V Served is 2003 program data. Title V served for deliveries is number of pregnant and postpartum women served by PA's local Title V agencies. Title V served for infants is also number of infants served by PA's local Title V agencies and by our county health centers.

Total Infants in state is 2003 population data. 2004 population estimates are not yet available.

Eligible for Title XIX is the unduplicated count of MA eligible infants by race for 2004. Data for 2003 is not available. It includes claims adjudicated through calendar year 2004. Ethnicity codes are not available in DPW's data.

FIELD LEVEL NOTES

1. Section Number: Main Field Name: calls_2

Row Name: Number of calls received On the State MCH Hotline This reporting period

Column Name: FY Year: 2004 Field Note:

Field Note:
Healthy Baby calls dropped by nearly 50% due to decreased advertising. In previous years, 2 television media flights aired directing callers to the line. In 2004, only 1 flight aired. During and after the flight, call volume increased by 200 calls per month.

FORM 10 TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT STATE PROFILE FOR FY 2006 [Sec. 506(A)(1)]

STATE: PA

1. State MCH Administration:

(max 2500 characters)

The Pennsylvania Department of Health's Bureau of Family Health is the State Title V Agency overseeing the MCH Title V Block Grant as well as other initiatives focused on maternal, child and family health. The mission of the BFH is to improve the health of pregnant women, infants, children, and CSHCN.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 25,502,552
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 63,441,000
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 0
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 88,943,552

9. Most significant providers receiving MCH funds:

10. Individuals served by the Title V Program (Col. A, Form 7)

_	Children's Hospital of Philadelphia
	Children's Hospital of Pittsburgh
	Philadelphia Department of Health
	Allegheny County Department of Health
_	2,628
_	147,396
	127,890

FORM NOTES FOR FORM 11

General Note: Statistics from the PA Department of Health, Bureau of Health Statistics and Research are available only one year or more from the close of any year. We are therefore unable to provide certain statistics for 2004. All 2003 population data that appear (unless otherwise noted) are estimates calculated and provided by the PA State Data Center, Harrisburg, PA.

FIELD LEVEL NOTES

1. Section Number: Performance Measure #1

Field Name: PM01 Row Name: Column Name: Year: 2002 Field Note:

FY 2001 is calendar year data. This data is corrected: The denominator is final 2001 birth data from the Department of Health, Bureau of Health Statistics and Research. Because TVIS will not allow us to enter a larger numerator than denominator, we are unable to report the only number we have available for newborns screened: 148,939. This number is the number of specimens submitted for evaluation. It exceeds the denominator because the number includes repeat filter papers on infants who may have had several paper specimens taken. FY 2001 and earlier were based on the following performance measure: The percent of infants who are screened for conditions mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) and receive appropriate follow up and referral as defined by their State. (National Newborn Screening and Genetic Resource Center)

FY 2002 data: Performance measure has changed. No data yet available for 2002.

2. Section Number: Performance Measure #1

Field Name: PM01 Row Name: Column Name: Year: 2003 Field Note:

2003 data are estimates based on 2002 and 2004 data. 2003 data are not available.

Section Number: Performance Measure #1

Field Name: PM01 Row Name: Column Name: Year: 2004 Field Note:

The numerator is patients needing treatment that received treatment (D- form 6). The denominator is the number of confirmed cases (C-form 6).

Section Number: Performance Measure #2

Field Name: PM02 Row Name: Column Name: Year: 2002 Field Note:

Data source: Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Healthcare Needs. 2001. Numerator and denominator not available.

5. Section Number: Performance Measure #2

Field Name: PM02 Row Name: Column Name: Year: 2003 Field Note:

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

6. Section Number: Performance Measure #2

Field Name: PM02 Row Name: Column Name: Year: 2004 Field Note:

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

7. Section Number: Performance Measure #3

Field Name: PM03 Row Name: Column Name: Year: 2002 Field Note:

Data source: Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Healthcare Needs, 2001. Numerator and denominator not available.

8. Section Number: Performance Measure #3

Field Name: PM03 Row Name: Column Name: Year: 2003 Field Note:

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

9. Section Number: Performance Measure #3

Field Name: PM03 Row Name: Column Name: Year: 2004 Field Note:

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

10. Section Number: Performance Measure #4

Field Name: PM04 Row Name: Column Name: Year: 2002 Field Note:

Data source: Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of

Children with Special Healthcare Needs, 2001. Numerator and denominator not available.

Section Number: Performance Measure #4

Field Name: PM04 Row Name: Column Name: Year: 2003 Field Note:

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

12. Section Number: Performance Measure #4

Field Name: PM04 Row Name: Column Name: Year: 2004 Field Note:

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

13. Section Number: Performance Measure #5

Field Name: PM05 Row Name: Column Name: Year: 2002 Field Note:

Data source: Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Healthcare Needs, 2001. Numerator and denominator not available.

14. Section Number: Performance Measure #5

Field Name: PM05 Row Name: Column Name: Year: 2003 Field Note:

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

15. Section Number: Performance Measure #5

Field Name: PM05 Row Name: Column Name: Year: 2004 Field Note:

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

6. Section Number: Performance Measure #6

Field Name: PM06 Row Name: Column Name: Year: 2002 Field Note:

Because only one of the States (Maine) met the NCHS standards for reliability for PM 6, the 2002 indicator is the national average except for Maine which has its State value noted.

Data source: Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Healthcare Needs, 2001. This measure does not meet the NCHS standard for reliability or precision. The relative standard error is greater than 30%. Numerator and denominator not available.

17. Section Number: Performance Measure #6

Field Name: PM06 Row Name: Column Name: Year: 2003 Field Note:

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

18. Section Number: Performance Measure #6

Field Name: PM06 Row Name: Column Name: Year: 2004 Field Note:

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

19. Section Number: Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2002 Field Note:

The Annual Performance indicator for 2000 and 2001 was obtained from the 2000 and 2001 National Immunization Survey conducted by the National Center for Health Statistics, Centers for Disease Control and Prevention. Data are for children 19-35 months of age. Numerator and denominator not available.

Data should be in this form:

2000: 77.8+/-4.6 2001: 78.8+/-4.2

Data for 2002 will not be available until later in the year 2003.

20. Section Number: Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2003 Field Note:

The Annual Performance indicator for 2000, 2001, 2002 and 2003 was obtained from the 2000, 2001, 2002 and 2003 National Immunization Survey conducted by the National Center for Health Statistics, Centers for Disease Control and Prevention. Data are for children 19-35 months of age. Numerator and denominator not available. Data should be in this form:

2000: 77.8+/-4.6 2001: 78.8+/-4.2 2002: 82.4+/-4.5 2003: 86.2+/-4.1

Data for 2004 will not be available until later in the year 2005.

21. Section Number: Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2004 Field Note:

Data for 2004 are not available.

22. Section Number: Performance Measure #8

Field Name: PM08 Row Name: Column Name: Year: 2002 Field Note:

Field Name: PM08 Row Name: Column Name: Year: 2004 Field Note:

Data for 2004 not available until year 2006.

25. Section Number: Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2002 Field Note:

Pennsylvania is developing the capacity to report this data by augmenting student health status information reported to the Department on annual health reports from school districts (this data is managed by the Department of Health, Bureau of Community Health Systems, School Health Division). This information will include aggregate data regarding oral health screening outcomes, including the presence of sealants in grades K/1, 3 (8-year olds), and 7. This data augmentation is expected to be pilot tested in school year 2003-2004, and to become a requirement in school year 2004-2005. Until implementation of this revised data, Pennsylvania will not have the ability to report on this measure. Prior reporting was based upon a one-time survey completed in 2000.

26. Section Number: Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2003 Field Note:

Field Name: PM11 Row Name: Column Name: Year: 2004 Field Note:

Data for 2004 not available until year 2006.

34. Section Number: Performance Measure #12

Field Name: PM12 Row Name: Column Name: Year: 2002 Field Note:

Implementation of the Pennslvania statute requiring universal newborn hearing screening began on July 1, 2002. Accurate data for screening at all birthing hospitals is not available prior to that date. 2001 reporting was based upon a pre-mandated demonstration project in 26 hospitals.

For this reporting period, the number of infants reported as being screened (numerator) is for the last 6 months of calendar year 2002. Birth figures (denominator) are preliminary data supplied by the PA Department of Health, Bureau of Health Statistics and Research. Final birth figures for 2002 will not be available until approximately one year after year end. Our number will be corrected at that time.

Our statutory objective, according to Act 89 of 2001 is that 85% of newborns are screened by July 1, 2003.

35. Section Number: Performance Measure #12

Field Name: PM12 Row Name: Column Name: Year: 2003 Field Note:

Birth figures (denominator) are preliminary data supplied by the PA Department of Health, Bureau of Health Statistics and Research.

Our statutory objective, according to Act 89 of 2001 is that 85% of newborns are screened by July 1, 2003.

36. Section Number: Performance Measure #12

Field Name: PM12 Row Name: Column Name: Year: 2004 Field Note:

Birth figures (denominator) are preliminary births in hospitals supplied by the PA Department of Health, Bureau of Health Statistics and Research.

Our statutory objective, according to Act 89 of 2001 is that 85% of newborns are screened.

The annual indicator has exceeded the annual performance objective, however the data being used to calculate the annual indicator are preliminary data and when final data becomes available the annual indicator will change. We feel that the annual performance objective is closer to reality than the annual indicator at this time.

37. Section Number: Performance Measure #13

Field Name: PM13 Row Name: Column Name: Year: 2002 Field Note:

Percent and denominator are from Table HI-5, Health Insurance Coverage Status and Type of Coverage by State, Children Under 18, prepared by the U.S. Census Bureau. The numerator was calculated using the data from Table HI-5. PA has chosen to use the U.S. Census Bureau data because we believe it is the most consistent, reliable, and objective data available to us. The U.S. Census Bureau data for 2002 will not be available until September of 2003, so there will be a gap in our reporting on these figures.

There are at least two other ways that Pennsylvania could choose to derive the numerator for this performance measure. The numerator 258,000 was calculated a few years ago by the PA Insurance Commission (which administers CHIP). 258,000 is the number officially in use by the PA Insurance Commission and by many advocacy groups across the state. Families USA has also released a study (available at www.familiesusa.org) which indicates that 636,000 children under 18 were uninsured for at least one month during the years 2001 and 2002.

38. Section Number: Performance Measure #13

Field Name: PM13 Row Name: Column Name: Year: 2003 Field Note:

Percent and denominator are from Table HI-5, Health Insurance Coverage Status and Type of Coverage by State, Children Under 18, prepared by the U.S. Census Bureau. The numerator was calculated using the data from Table HI-5. PA has chosen to use the U.S. Census Bureau data because we believe it is the most consistent, reliable, and objective data available to us. The U.S. Census Bureau data for 2004 will not be available until September of 2005, so there will be a gap in our reporting on these figures.

There are at least two other ways that Pennsylvania could choose to derive the numerator for this performance measure. The numerator 133,000 has been derived by a Health Insurance Survey conducted in 2004 by the PA Insurance Commission (which administers CHIP). Families USA has also released a study (available at www.familiesusa.org) which indicates that 636,000 children under 18 were uninsured for at least one month during the years 2001 and 2002.

39. Section Number: Performance Measure #13

Field Name: PM13 Row Name: Column Name: Year: 2004 Field Note:

Data for 2004 not available until year 2006.

40. Section Number: Performance Measure #14

Field Name: PM14 Row Name: Column Name: Year: 2002 Field Note:

Numerator is provided by the PA Department of Public Welfare, from their Enterprise Data Warehouse based on claims having a date of service during the period 10/01/01 to 09/30/02, regardless of the claim adjudication date or payment date. Numerator is the number of children age 0 to 20 who received a service approved by MA either through the Fee-for-Service or Managed Care Delivery System. DPW cannot provide a number for children potentially eligible for MA who did not apply. The denominator is the number of children who have been determined to be eligible for MA who are age 0 to 20 during the reporting period.

41. Section Number: Performance Measure #14

Field Name: PM14 Row Name: Column Name: Year: 2003 Field Note:

55. Section Number: State Performance Measure #1

Field Name: SM1 Row Name: Column Name: Year: 2002 Field Note:

Denominator for 2001 is a population estimate of the number of females age 15-17 in Pennsylvania . No estimate is yet available for 2002. Numerator for 2002 is a compilation of totals reported from Pennsylvania's four Family Health Councils. The Family Health Councils reported the number of females age 15-17 served by their agencies, and indicated that though they do not have information on those served who are sexually active, it is likely that nearly all served are sexually active. PA does not participate in the Youth Risk Behavior Survey, which provides data on youth sexual activity.

56. Section Number: State Performance Measure #1

64. Section Number: State Performance Measure #5

Field Name: SM5 **Row Name:** Column Name: Year: 2002 Field Note:

Numerator was provided by the PA Chapter of the American Academy of Pediatrics, which is contracted to administer our statewide Child Death Review Team Program. Numerator is the number of child deaths reviewed by the teams across the state. Denominator is the number of child deaths sent to the PA AAP for distribution to the teams. Numerator does not match denominator because 14 counties in the state do not have child death review teams and are therefore unable to review resident deaths. Denominator does not match the PA Department of Health, Bureau of Health Statistics and Research death records because out-of-state deaths are transmitted to the team later than in-state deaths, and are not always reviewed in the year in which they occurred.

65. Section Number: State Performance Measure #5

Performance measure is being discontinued.

Section Number: State Performance Measure #9

Field Name: SM9 **Row Name:** Column Name: Year: 2002

Denominator is the total number of records processed for children in the State-regulated daycare system. Numerator is the total number of records with a documented vision screening. Data is for State fiscal year 2001-2002. The PA Department of Public Welfare, who manages state-regulated daycare and tracks the information in their ECELSTRAK database, provides the numerator and denominator. Monies from DPW and the Department of Health, as well as Federal and private grants, support the database. Responsibility for tracking immunizations, which includes the tracking for vision screening, has been passed from DPW to the Department of Health, Bureau of Communicable Diseases. That Bureau has chosen not to track vision screening, so this data will be available to us only through July 1, 2003.

Field Name: SM10 Row Name: Column Name: Year: 2003 Field Note:

2002 data is from our CORE computer system for State Fiscal Year 2002-2003.

5. Section Number: State Performance Measure #10

Field Name: SM10 Row Name: Column Name: Year: 2004 Field Note:

Performance measure is being discontinued.

76. Section Number: State Performance Measure #11

Field Name: SM11 Row Name: Column Name: Year: 2002 Field Note:

This performance measure was new with the FFY 2001 Application. It was at first reported using data from a Farm Show survey which has not been repeated. The measure has been changed this year to rely upon a more consistent, duplicable and statistically sound reporting source. Please see detail sheet.

77. Section Number: State Performance Measure #11

Field Name: SM11 Row Name: Column Name: Year: 2003 Field Note:

This performance measure is being discontinued.

78. Section Number: State Performance Measure #11

Field Name: SM11 Row Name: Column Name: Year: 2004 Field Note:

Performance measure is being discontinued.

79. Section Number: State Performance Measure #12

Field Name: SM12 Row Name: Column Name: Year: 2002 Field Note:

This measure was new with the 2001 Application. It was reported using survey data from the Special Kids Network Question of the Month, which is asked of all callers to the Special Kids Network during a given month. This question was not been asked by the Special Kids Network during the calendar year 2002.

80. Section Number: State Performance Measure #12

Field Name: SM12 Row Name: Column Name: Year: 2003 Field Note:

This measure was new with the FFY 2001 Application. It was reported using survey data from the Special Kids Network Question of the Month, which is asked of all callers to the Special Kids Network during a given month. This question was not asked by the Special Kids Network during the calendar year 2003.

81. Section Number: State Performance Measure #12

Field Name: SM12 Row Name: Column Name: Year: 2004 Field Note:

Performance measure is being discontinued.

82. Section Number: State Performance Measure #13

Field Name: SM13 Row Name: Column Name: Year: 2002 Field Note:

Pennsylvania does not have the capacity to report on this performance measure at this time. Prior reporting was based on a one-time survey performed by the Department of Health, Bureau of Chronic Disease and Injury Prevention. Pennsylvania is developing the capacity to report this data by augmenting student health status information reported to the Department on annual health reports from school districts. This information will include aggregate data regarding body mass index. This data augmentation

will be pilot tested in school year 2003-2004, and will become a requirement in school year 2004-2005.

83. Section Number: State Performance Measure #13

Field Name: SM13 Row Name: Column Name: Year: 2003 Field Note:

Pennsylvania does not have the capacity to report on this performance measure at this time. Prior reporting was based on a one-time survey performed by the Department of Health, Bureau of Chronic Disease and Injury Prevention. Pennsylvania is developing the capacity to report this data by augmenting student health status information reported to the Department on annual health reports from school districts. This information will include aggregate data regarding body mass index. This data augmentation was pilot tested in school year 2003-2004, and will become a requirement in school year 2004-2005.

FORM 14 LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: PA FY: 2006

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

- 1. Addressing disparities in the rates of low birth weight and premature birth.
- 2. Maintain statewide access to prenatal care and labor and delivery services.
- 3. Promote smoking cessation during pregnancy.
- Improve oral health of children and adolescents.
- Increase access to childhood lead screening.
- 6. Promote health and wellness of school age children.
- 7. Reduce childhood obesity.
- 8. Strengthen health and physical education activities within the schools.
- Decrease rates of teen suicide.
- 10. Decrease alcohol-related driving morbidity and mortality among teens.

FORM NOTES FOR FORM 14

Pennsylvania has three additional priority needs:

- Increase coordination of programs serving CSHCN;
 Increase utilization of the Medicaid EPSDT Program; and,
 Increase availability of MCH program data.

FORM 16 STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET STATE: PA

SP # 1

PERFORMANCE MEASURE: Percent of sexually active teens (ages 15-17) who use the Title V Family Planning Program.

STATUS:

STATUS: Active

With the goal of reducing the number of pregnancies among teens (ages 15-17), monitor the percentage of sexually active teens served by the Title V Family Planning Program.

DEFINITION

GOAL

Numerator:

The number of sexually active females ages 15-17 who utilize Pennsylvania's family planning clinic system.

Denominator:

Estimate of Pennslyvania females ages 15-17 who could potentially receive services through the family planning clinic

system.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Abortion Provider Survey, Alan Guttmacher Institute; National Vital Statistics System (NVSS), CDC, NCHS; National

Survey of Family Growth (NSFG), CDC, NCHS.

SIGNIFICANCE

The teenage pregnancy rate in the United States is much higher than in many other developed countries - twice as high as in England and Wales, France, and Canada and nine times as high as in the Netherlands or Japan. Teenage pregnancy remains an intense national issue, within the context of public health & welfare reform, concerning the optimum potential of the Nation's youth and the growth & development of newborns. Most adolescent childbearing occurs outside marriage, a

trend that has increased markedly during the past two decades. In 1997, 78 percent of births to adolescent females (under age 20 years) were out of wedlock, compared to 44 percent two decades earlier (1977). The unduplicated counts of family planning patients provides an excellent tool to monitor the impact of funding or provider changes on the sexually active teenage population. Since Pennsylvania does not currently conduct any statewide surveys to measure the level of sexual

activity for this population, this data is our best estimate in the State's high-risk activity factor.

PERFORMANCE MEASURE: Percent of children (ages 1-2) screened for elevated blood lead levels (Risk Factor)

STATUS:

To assure that all children with elevated blood lead levels are identified as early as possible

DEFINITION

GOAL

Numerator:

Children 1 and 2 years of age screened for blood lead levels

Denominator:

Number of children 1 and 2 years of age.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

The number of children screened for elevated blood levels will be obtained from the PA/CLPPP's Lead Lab Data **DATA SOURCES AND DATA ISSUES**

Management System (PALL). The total number of children comes from PA Vital Statistics.

According to national estimates (NHANES III), 4.4% of children ages 1-5 in the United States are lead-poisoned with blood **SIGNIFICANCE**

lead levels of 10 ug/dL or greater, a level determined by the Centers for Disease Control and Prevention (CDC) to be a health concern. There are approximately 629,716 children in Pennsylvania aged 1-5, and it is estimated that 27,708 of these children have blood lead levels above 10 ug/dL. A 1994 national survey showed that only about one fourth of young children had been screened and only about one-third of poor children, who are at higher risk of lead exposure than other children, had been screened. Additionally, a report recently released by the GAO (2/98) indicates that few Medicaid children are screened for blood lead levels. There is a need to increase the screening and follow-up care of children who most need the services, as outlined in the updated CDC statement entitled "Screening Young Children for Lead Poisoning: Guidance for State and Local Public Health Officials".

PERFORMANCE MEASURE: Rate of deaths among children (ages 0-14) that are a result of unintentional injuries

STATUS: Active

GOAL To prevent and reduce deaths due to unintentional injuries to children.

DEFINITION

Numerator: The number of deaths to children, ages 0-14, caused by unintentional inuries

Denominator:

The number of children, ages 0-14, in the state.

Units: 100000 Text: Rate

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

PA Vital Statistics

SIGNIFICANCE

Injuries are the single greatest killer of children and cost the nation approximately \$133 billion each year. Injuries are an enormous public health problem, but they are both understandable and preventable. Injury data are available, and by collecting data, injuries can be identified and preventive measures can be designated and implemented.

SP#____5

PERFORMANCE MEASURE: Percent of child deaths (ages 0-19) reviewed by a local Child Death Review Team.

STATUS: Active

GOAL To identify preventable child deaths in Pennsylvania through child death review, and with this information, to develop state

and local plans to prevent future child deaths.

DEFINITION

Numerator:

Number of child deaths (aged 0-19) reviewed by a local team.

Denominator:

Number of child deaths (aged 0-19) in Pennsylvania.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Pennsylvania Vital Statistics.

SIGNIFICANCE

The identification of preventable deaths through child death review will assist the development of prevention strategies, including improved systems intervention at both the local and state levels. Also, the quality of information recorded on the

death certificates has improved with the Child Death Review Team process.

PERFORMANCE MEASURE: The degree of improvement in the Bureau programs' participation in prevention initiatives that impact conditions and

complications affecting children with special health care needs.

STATUS:

GOAL To increase by 5% the number of Bureau programs containing prevention components.

DEFINITIONNumerator is the number of appropriate Bureau programs (not including WIC) which include a prevention componant,

denominator is number of appropriate Bureau programs (not including WIC).

Numerator:

The number of Bureau programs with prevention components.

Denominator:

The total number of Bureau programs.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

The Bureau of Family Health (not including WIC)

SIGNIFICANCE

Chronic disabilities and conditions are often disregarded by prevention campaigns, because it is assumed that there is no way to prevent many of these conditions. However, recent research into folic acid as a prevention of neural tube defects shows us that there is a role to play in the primary prevention of some chronic conditions; even more widespread is the potential to prevent condition complications. The goal is to educate persons with a disability about the relationship between protective and risk factors and secondary conditions, and to increase behaviors consistent with a healthy lifestyle.

PERFORMANCE MEASURE: Percent of children in regulated center-based child care who are getting vision screening.

STATUS: Activ

GOAL To improve the number of children in regulated center-based child care who receive a vision screening exam in an effort to

never miss a child with visual pathology, and when pathology exists, to detect it as early as possible.

DEFINITION

Numerator:

The number of children in regulated center-based child care who show documentation of a completed vision screen on

Form: CY 51 (DPW health form signed by child's physician).

Denominator:

The actual number of records reviewed by ECELSTRAK for children in regulated center-based child care.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Department of Public Welfare ECELSTRAK

SIGNIFICANCE

Most eye defects are correctable, but delay can lead to permanent vision loss. In the practice of medicine nothing is more disappointing than the discovery of morbidity that could have been prevented or diminished by early screening. Amblyopia, the loss of visual acuity that results when ocular pathology is not diagnosed and corrected in the early years is the leading cause of preventable vision loss in children. Routing vision screening, using simple tests geared to a child's age and level of

development can identify ocular pathology early on, before irreversible damage is done.

Number of visits to specialty clinics where coordination between the specialist and primary care physician is indicated on the **PERFORMANCE MEASURE:**

client encounter record.

STATUS:

GOAL To ensure families of CSHCN are receiving care coordination services through specialty clinic providers.

DEFINITION

Number of CSHN client specialty care clinic encounter forms evidencing coordination by specialty clinics with primary care

physicians.

Denominator:Number of CSHCN attending comprehensive specialty care clinics as evidenced by a client encounter form.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

The Division of Special Health Care Programs' client encounter forms.

SIGNIFICANCE

The state has contracts with comprehensive specialty clinics for direct health services. It is important to evaluate the

contractors efforts regarding coordination of care with primary care physicians.

PERFORMANCE MEASURE: Percent of first-time callers to Special Kids Network.

STATUS: Active

GOAL To increase knowledge of Title V services among families of CSHCN.

This performance measure was new with the FFY 2001 application. It was at first reported using data from a Farm Show **DEFINITION**

survey which has not been repeated. We have changed the measure this year to rely upon a more consistent, duplicable

and, we believe, statistically sound reporting source.

Numerator:

The numerator is the number of first-time callers to our Special Kids Network.

Denominator:

The denominator is the total number of calls to the Special Kids Network.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

SKN call records.

SIGNIFICANCE

The 1999 Survey of Children with Special Health Care Needs revealed that 48% of respondents were aware of Deparatment of Health's Division of Special Health Care Programs. Also, 47% of the respondents cited not knowing what

services are available as the number one barrier to obtaining services.

PERFORMANCE MEASURE: Percent of CSHCN who report receiving specialty care.

STATUS: Active

To assure that children with special health care needs, including those in managed care programs, have access to GOAL

specialists.

DEFINITION Survey answers

Numerator:

Number of CSHCN families who respond to survey of families of CSHCN served by Title V and report that they have

received services of at least one medical specialist.

Number of families of CSHCN who respond to survey of families of CSHCN served by Title V.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Division of Special Health Care Programs' survey of families of CSHCN via a phone survey of callers to the Division's toll **DATA SOURCES AND DATA ISSUES**

free number and Special Kids Network. This measure was new in the Block Grant FFY 2001 Application. It was reported using survey data from our Special Kids Network Question of the Month, which is asked of all callers to the Special Kids Network during a given month. This question has not been asked by the Special Kids Network during the calendar year

SIGNIFICANCE

It is necessary to assure that children with special health care needs, including those in managed care programs, have access to a broad range of specialty services. CSHCN are particularly vulnerable in the managed care environment, as chronic and disabling conditions are not necessarily AMENABLE TO PREVENTION AND THESE CHILDREN OFTEN REQUIRE SPECIALTY TREATMENT AS PART OF THEIR ROUTINE CARE. GIVEN THE COMPLEX AND DIVERSE NEEDS OF CHRONICALLY ILL AND DISABLED CHILDREN, ACCESS TO SPECIALTY CARE OF APPROPRIATE BREADTH AND DEPTH REPRESENTS ONE OF THE CRITICAL FEATURES of CSHCN HEALTH CARE.

PERFORMANCE MEASURE: Percent of School Aged Children (6-19) who are Overweight or Obese

STATUS: Active

GOAL To avert the morbidity potential for obese/overweight children

DEFINITION

Numerator:Number of children ages 6-19 years in the survey population with a BMI at or above the gender and age-specific 95th percentile from the CDC Growth Charts: United States

Denominator:

Number of children in the survey poulation aged 6-19 years.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Obesity/overweight survey, Bureau of Chronic Disease and Injury Prevention, Division of School Health, Population **DATA SOURCES AND DATA ISSUES**

numbers are available from the census.

SIGNIFICANCE Obesity has been identified as one of the major public health problems in this country. Overweight and obesity acquired

during childhood or adolescence may persist into adulthood and increase the risk for some chronic diseases in later life.

Obese children also may experience psychological stress.

FORM 19 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM STATE: PA

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Informatioin)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES Annual linkage of infant birth and infant death certificates	3	No
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	1	No
REGISTRIES AND SURVEYS Hospital discharge survey for at least 90% of in-State discharges	3	No
Annual birth defects surveillance system	1	No
Survey of recent mothers at least every two years (like PRAMS)	1	No

- 1 = No, the MCH agency does not have this ability.
 2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
 3 = Yes, the MCH agency always has this ability.

FORM 19 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM STATE: PA

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	1	No
Other: Behavioral Risk Factor Surveillance Survey (BRFSS)	3	Yes

HEALTH SYSTEMS CAPACITY INDICATOR #09C (Data Capacity) Overweight/Obesity (The Ability of the State to Determine the Percent of Children Who are Obese or Overweight)

Data Source	Does your state participate in this survey/data source? (Select 1 - 3)*	Does your MCH program have direct access to this electronic database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	1	No
Pediatric Nutrition Surveillance System (PedNSS)	2	No
WIC Program Data	3	No
Other: Behavioral Risk Factor Surveillance Survey (BRFSS)	3	Yes

'Where:

- 1 = No
- 2 = Yes, the State participates but the sample size is <u>not</u> large enough for valid statewide estimates for this age group.
- 3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:

1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FIELD LEVEL NOTES

1. Section Number: Indicator 09A

Field Name: BAD

Row Name: Annual linkage of infant birth and infant death certificates

Column Name: Year: 2006 Field Note:

The PA FORE Families birth defects surveillance system is still under development as a tool for analysis and reporting purposes.

2. Section Number: Indicator 09A

Field Name: BAW

Row Name: Annual linkage of birth certificates and WIC eligibility files

Column Name: Year: 2006 Field Note:

PA DOH does not have this ability.

3. Section Number: Indicator 09A

Field Name: BAN

Row Name: Annual linkage of birth certificates and newborn screening files

Column Name: Year: 2006 Field Note:

PA DOH does not have this ability.

4. Section Number: Indicator 09A

Field Name: Discharge

Row Name: Hospital discharge survey for at least 90% of in-State discharges

Column Name: Year: 2006 Field Note:

The PA FORE Families birth defects surveillance system is still under development as a tool for analysis and reporting purposes.

5. Section Number: Indicator 09A

Field Name: BirthDefects

Row Name: Annual birth defects surveillance system

Column Name: Year: 2006 Field Note: Year: 2006 Field Note:

The PA FORE Families birth defects monitoring system is in Pilot year 2 a tool for analysis and reporting purposes.

6. Section Number: Indicator 09A

Field Name: RecentMother

Row Name: Survey of recent mothers at least every two years (like PRAMS)

Column Name: Year: 2006 Field Note:

PA DOH does not have this ability.

7. Section Number: Indicator 09B

Field Name: YRBSS_09B

Row Name: Youth Risk Behavior Survey (YRBS)

Column Name: Year: 2006 Field Note:

PA does not participate in survey.

8. Section Number: Indicator 09B

Field Name: Other1_09B Row Name: Other Column Name: Year: 2006 Field Note:

The BRFSS targets different populations from year to year.

Section Number: Indicator 09C Field Name: PEDNSS_09C

Row Name: Pediatric Nutrition Surveillance System (PedNSS)

Column Name: Year: 2006 Field Note:

PA participates but the sample size is not large enough for valid statewide estimates for this age group.

10. Section Number: Indicator 09C

Field Name: WIC_09C

Row Name: WIC Program Data

Column Name: Year: 2006 Field Note: No data available.

11. Section Number: Indicator 09C

Field Name: Other1_09C Row Name: Other Column Name: Year: 2006

Field Note:

The BRFSS targets different populations from year to year.

12. Section Number: Indicator 09A

Field Name: BAM
Row Name: Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files
Column Name:
Year: 2006
Field Note:
PA DOH does not have this ability.

FORM 21 HEALTH STATUS INDICATORS DEMOGRAPHIC DATA STATE: PA

HSI #10 - Demographics (Geographic Living Area) Geographic living area for all resident children aged 0 through 19 years old. (Demographics)

GEOGRAPHIC LIVING AREAS	TOTAL	
Living in metropolitan areas	0	
Living in urban areas	2,881,158	
Living in rural areas	379,503	
Living in frontier areas	0	
Total - all children 0 through 19	3,260,661	

Note:

The Total will be determined by adding reported numbers for urban, rural and frontier areas.

FORM 21 HEALTH STATUS INDICATORS DEMOGRAPHIC DATA STATE: PA

HSI #11 - Demographics (Poverty Levels) Percent of the State population at various levels of the federal poverty level. (Demographics)

POVERTY LEVELS	TOTAL
Total Population	12,281,054.0
Percent Below: 50% of poverty	4.9
100% of poverty	10.6
200% of poverty	

FORM 21 HEALTH STATUS INDICATORS DEMOGRAPHIC DATA STATE: PA

HSI #12 - Demographics (Poverty Levels) Percent of the State population aged 0 through 19 at various levels of the federal poverty level. (Demographics)
Reporting Year: 2004 Is this data from a State Projection? No Is this data final or provisional? Final

POVERTY LEVELS	TOTAL
Children 0 through 19 years old	2,922,221.0
Percent Below: 50% of poverty	6.8
100% of poverty	14.4
200% of poverty	33.8

FORM NOTES FOR FORM 21

'More than one race reported' is not collected for HSI #06, HSI #07, HSI#08 and all numbers with the exception of SCHIP on HSI #09.

NEW STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET STATE: PA

SP# 1

PERFORMANCE MEASURE: The percent of live births weighing less than 2,500 grams.

GOAL To reduce proportion of all live births with low birth weight to 8.0.

DEFINITION

Numerator:

Number of resident live births weighing less than 2,500 grams in the calendar year

Denominator:

Number of resident live births in the State in the calendar year

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE Objective 16-10a

Reduce low birth weights (LBW) to no more than 5 percent of all live births.

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

OBJECTIVE

The general category of low birth weight infants includes pre-term infants and infants with intrauterine growth retardation. Many risk factors have been identified for low birth weight babies including: both young and old maternal age, poverty, late prenatal care, smoking, substance abuse, and multiple births.

2006 2007 2008 2009 2010 7.9 7.8

Page 102 of 109

PERFORMANCE MEASURE: The rate of motor vehicle crashes caused by teen drinking drivers ages (17-19).

GOAL To reduce the rate of motor vehicle crashes caused by teen drinking drivers ages (17-19) to 162.5 per 100,000.

DEFINITION

Numerator:

Number of motor vehicle crashes caused by teen drinking drivers ages (17-19).

Denominator:

Number of youth aged (17-19). **Units:** 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 26-1a

Reduce deaths caused by alcohol-related motor vehicle crashes to 4.1 per 100,000

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

PennDOT

About 3 in every 10 persons in the United States will be involved in an alcohol-related motor vehicle crash sometime in their life. Motor vehicle crashes are a leading cause of death among youth, especially teenagers. Fatal injuries caused by motor vehicle crashes in which a driver, occupant or non-occupant was under the influence of alcohol remains a serious problem

across the United States.

OBJECTIVE

| 2006 | 2007 | 2008 | 2009 | 2010 | 162.5 | 157.5 | 150.5 |

Page 103 of 109

PERFORMANCE MEASURE: Percent of live births to mothers who receive early and adequate prenatal care.

To increase the percent of pregnant women who receive early and adequate prenatal care to 65.3. GOAL

DEFINITION

Numerator:

Number of births to mothers who received early and adequate prenatal care per Kotelchuck's Adequacy of Prenatal Care

Utilization Index (APNCU).

Denominator:

Number of live births in the State in the calendar year.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 16-6

Increase the percent of pregnant women who receive early and adequate prenatal care to 90.

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

State vital records.

Prenatal care is more likely to be effective and produce better outcomes if women begin receiving care early in pregnancy and continue to receive care throughout the pregnancy.

OBJECTIVE

2006 2007 2008 2009 2010 65.3 65.5 66

SP#____4

PERFORMANCE MEASURE: Percent of WIC enrolled breastfeeding mothers who breastfed their infants for at least the first six months of life.

GOAL To increase the percentage of WIC enrolled mothers who breastfeed their infants for at least the first six months of life to

14.6 percent.

DEFINITION

Numerator:

Number of WIC enrolled mothers who breastfed their infants for at least the first six months of life.

Denominator:

Number of WIC enrolled mothers who breastfed.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 16-19b

Increase the percent of mothers who breastfeed their babies at 6 months of age to 50.

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

CDC PedNSS Report

The advantages of breastfeeding are indisputable and include nutritional, immonological and psychological benefits to both

infant and mother, as well as economic benefits.

OBJECTIVE

| 2006 | 2007 | 2008 | 2009 | 2010 | | 14.6 | 14.8 | 14.8 |

PERFORMANCE MEASURE: Percent of callers to the Special Kids Network (SKN) who received at least one referral to resources.

GOAL To increase the percentage of callers to the SKN who received at least one referral to resources.

DEFINITION

Numerator:

Number of completed calls to the SKN that resulted in at least one referral to resources.

Denominator:

Number of completed calls to the SKN.

Units: 100 Text: Percent

Objective 16-23 **HEALTHY PEOPLE 2010 OBJECTIVE**

Increase the number of states that have service systems for children with special health care needs.

DATA SOURCES AND DATA ISSUES

Health and Human Services Call Center

SIGNIFICANCE Parents/guardians with children who have special health care needs are more likely to obtain the needed services if they

have access to or are aware of a public system that will provide reliable and relevant information and referral services in a

fast and efficient manner.

OBJECTIVE 2006 2007 2008 2009 2010 100 100 100 100

PERFORMANCE MEASURE: Rate of infant deaths as a result of Sudden Infant Death Syndrome (SIDS) and accidental suffocation and strangulation in

bed per 1,000 live births.

GOAL

To reduce the infant death rate due to SIDS and accidental suffocation and strangulation in bed to .50 per 1,000 live births.

DEFINITION

Numerator:

Number of infant (under age 1 year) deaths due to SIDS and accidental suffocation and strangulation in bed.

Denominator:

Number of resident live births in the State in the calendar year

Units: 1000 Text: Rate

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 16-1h

Reduce deaths from sudden infant death syndrome (SIDS) to 0.25 per 1,000

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

State vital records.

SIDS is the leading cause of postneonatal death among all racial and ethnic groups. A reduction in the rate of death from SIDS will contribute greatly to reducing the overall infant mortality rate. Babies are safest sleeping alone, on their backs in

uncluttered cribs. Babies who are not put to sleep safely are at risk of suffocation or strangulation. In some areas of the

State, more babies have died in co-sleeping environments than as a result of child abuse.

OBJECTIVE

2006	2007	2008	2009	2010
0.5	0.49	0.48		

PERFORMANCE MEASURE: Percent of children ages (1-2 yrs) screened for lead poisoning.

To increase the percentage of children ages (1-2 yrs) screened for lead poisoning to 21.4 percent. GOAL

DEFINITION

Numerator:

Number of children ages (1-2 yrs) tested for lead poisoning.

Denominator:

Number of children ages (1-2 yrs) in the State in the calendar year.

Units: 100 Text: Percent

Objective 8-11 **HEALTHY PEOPLE 2010 OBJECTIVE**

To eliminate elevated blood lead levels in children

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

OBJECTIVE

PA NEDSS

Although considerable progress has been made in reducing blood lead levels in the country and the State, lead poisoning remains a preventable health problem. Screening is a critical component in eliminating elevated blood lead levels.

2006 2007 2008 2009 2010 21.4 26.4 29.4 32.4 35.4
